

Core Fixed Income Fact Sheet

September 30, 2022

OBJECTIVE

The Core Fixed Income Strategy seeks to add value through a focus on enhanced yield, high quality, and a relative value management approach. Additionally, the strategy seeks to outperform its peers as well as the Bloomberg U.S. Aggregate Index.

INVESTMENT PHILOSOPHY

- We believe that opportunities to add alpha exist through a relative value approach.
- Income is typically the primary driver of fixed income returns over time.
- An awareness of the risk/reward dynamic at work in the marketplace is critical on behalf of today's investors.

INVESTMENT PROCESS OVERVIEW

“We seek consistent income across the capital structure and in high quality companies.”

- Michael Martin

RISK MANAGEMENT STRATEGY

The characteristics shown are based on a representative account and are for illustrative purposes only. Individual client accounts may differ based on a variety of client-specific factors, including account fees, account size, cash flows, client specific investment opportunities and restrictions. Strategy performance results shown may reflect the reinvestment of income. Past performance is no guarantee of future results. Index performance used throughout this piece is intended to illustrate historical market trends and is provided solely as representative of the general market performance for the same period of time. Indices are unmanaged, may not include reinvestment of income, and do not incur investment management fees. An investor is unable to invest in an index. The holdings and sectors listed should not be considered to be a recommendation to buy or sell a particular security. Actual holdings are subject to change daily. The mention of specific securities illustrates the application of our investment approach only and is not to be considered a recommendation by RCIM.

The securities discussed do not represent the Composite's entire portfolio. Actual holdings will vary depending on the size of the account, cash flows, and restrictions. It should not be assumed that any of the securities transactions or holdings discussed will prove to be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance of the securities discussed herein.

The information presented in this material is general in nature and not designed to address your investment objectives, financial situation, or particular needs. Prior to making any investment decision, you should assess, or seek advice from a professional regarding whether any particular transaction is relevant or appropriate to your individual circumstances. The mention of specific securities and sectors illustrates the application of our investment approach only and is not considered a recommendation by RCIM. The opinions expressed herein are those of RCIM and may not actually come to pass.

All information and performance are reported in U.S. dollars.

The "Net" returns presented are net of fees. Investing involves the risk of loss and investors should be prepared to bear potential losses. Past performance is not indicative of future results.

The "Gross" returns presented are gross of fees. The results do not reflect the deduction of investment management fees. The client's return will be reduced by the management fees and any other expenses incurred in the management of the account. For example, a US \$100 million account, paying a 0.50% annual fee, with a given rate of 10% compounded over a 10-year period would result in a net of fee return of 9.5%. Management fees are described in Part 2A of RCIM's Form ADV Part 2A. Investing involves the risk of loss and investors should be prepared to bear potential losses. Past performance is not indicative of future results.
